RWRD will be reviewing the Final Plat Dedication block language to ensure that appropriate access is granted to Pima County for the installation and maintenance of proposed sanitary facilities. The Final Plat will be reviewed for right-of-way, easement, common area, lot and block conformance with the Preliminary or Tentative Plat case file.

Each plat is unique, and will be compared with the Preliminary or Tentative Plat case file to determine if any DEQ or RWRD General, Permitting or Special Notes need to be incorporated into the document. The designer should be familiar with the following documents and sections applicable to the above mentioned issues:

- ✓ **Design Standards for Public Sewerage Facilities, June 1983**
(Pima County, Arizona Dept. of Wastewater Management)
